

Name **Layout Graph2D** **Version**
Updated by Mathias PFAUWADEL 1.1

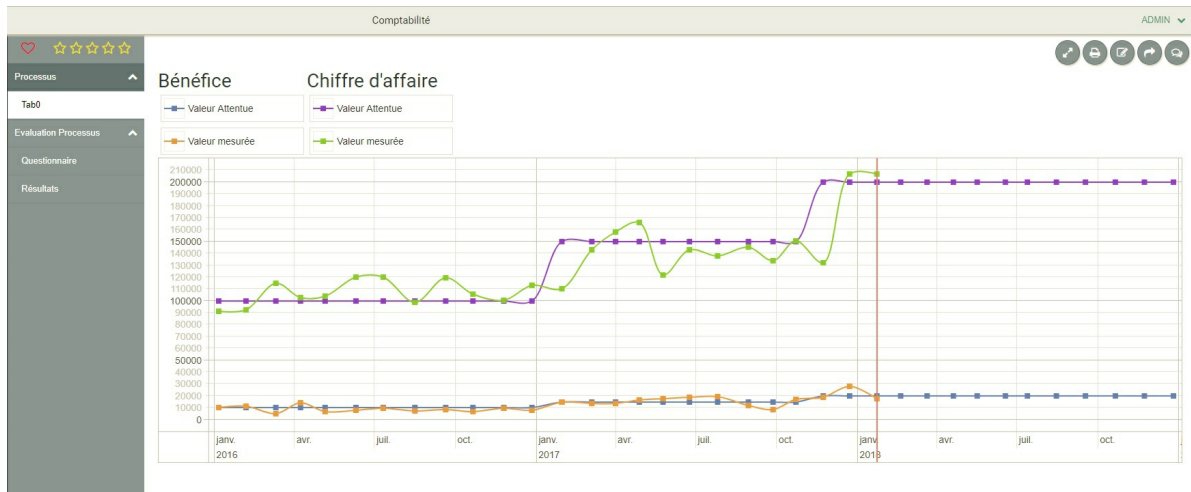

Patch Notes

- 1.1 : Adding minimalist behaviour
- 1.0 : 1st version working

Description

Allow you to display a 2D graph base on an object and his associated mesurement

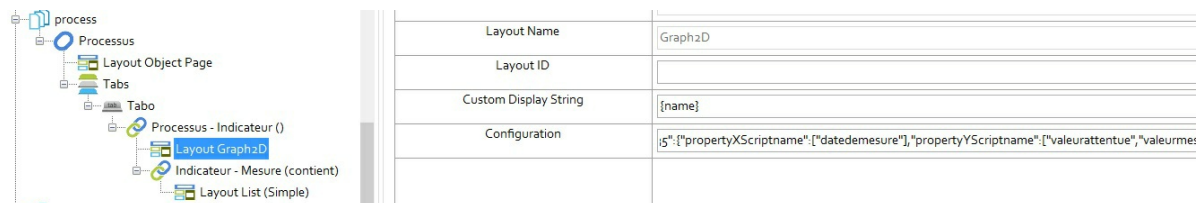

Screen Shot

You can click on the different curve to display or not a curve

Node setup

On ObjectPage

Options

Configuration

Describe your step in a json file, then mimify it on <https://www.cleancss.com/json-minify/>
Here is an exemple :

```

{
  "disable0": true, // if true will not display the dot with a value of 0
  "isMinimalist": true, // if true, the graph will be minimal
  "measurementNodes": {
    "mesure_20115_1779468335": { //nodeID
      "propertyXScriptname": ["datedemesure"], //propertyScripName in low
      "propertyYScriptname": ["valeurattentue", "valeurmesurée"] //proper
    }
  }
}

```

isMinimalist

If this option is turn on, the graph will be smaller (work only with one Y property), you can click to expand the graph
